section-title(“Profile”)
Software Engineering student at Universidad EAM (Armenia, Quindío), currently in 7th of 8 semesters. Started in February 2024, previously earned a Technical Degree in Software Analysis and Development from SENA (high school technical program).
I work as a Full Stack developer: backend, frontend, mobile, cloud (AWS), DevOps, security, and AI integration. Strengths: technical leadership, clear communication, fast self-learning, advanced AI usage, future vision, thorough documentation, and organization. English A2 advanced (reading/writing). Seeking opportunities from 2026 onward.
